We Grow Gold

For over 12 years, Sonal Agritech has been the trusted name in landscape maintenance, tree care, and construction across India. We partner with homeowners and businesses to design, build, and sustain exceptional outdoor spaces—where nature meets craftsmanship.

Why Choose Us?

- **Expertise You Can Trust** – From intricate installations to sustainable maintenance, our experience ensures flawless execution.
- **People First** – We hire, train, and retain the finest talent because great landscapes are built by great teams.
- **Ethics-Driven** – Integrity isn't just a policy; it's how we've earned lifelong clients.
- **Innovation Meets Beauty** – We blend creativity with agritech solutions to craft spaces that inspire.

Our Promise?

A seamless experience—from concept to final walkthrough – and landscapes that stand the test of time.

Process

SOIL TESTING

We recommend the right test based on your landscape goals!

- Nutrient Analysis – Checks pH, nitrogen, and organic matter for ideal plant health.
- Drainage Test – Determines water retention to prevent flooding or drought stress.
- Contaminant Screening – Ensures soil is safe for edible gardens or kids/pets.

DESIGNING

Get a free initial sketch with a consultation!

- Concept Sketches – Quick visual ideas to align with your vision.
- 3D Renderings – Realistic digital models to "see" the final look.
- Themed Styles – Tropical, minimalist, native, or low-maintenance designs.

PROCUREMENT

We handle all logistics—you just enjoy the result

- OUR Nurseries – Fresh, climate-adapted plants.
- Premium Suppliers – Trusted partners for hardscape materials.
- Custom Orders – Rare species or bespoke elements e.g., water features.

PLACEMENT

- Precision Planting – Right depth/spacing for long-term growth.
- Hardscape Specialists – Patios, walkways, and retaining walls.
- Lighting/ Irrigation Integration – Automated or eco-friendly systems.

ESTIMATION

No surprises—locked-in pricing after approval

- Itemized Quotes – Transparent breakdown of plants, materials, and labor.
- Phased Budgeting – Prioritize high-impact areas first, expand later.
- Cost-Saving Alternatives – Suggest durable, local, or low-maintenance swaps.

MAINTENANCE

- Seasonal Packages – Pruning, fertilizing, and mulch refreshes.
- Disease Prevention – Regular checks for pests/fungi.
- Water Management – Smart irrigation adjustments.

*The trees breathe and
we borrow their skies*

Landscaping and Gardening

A well-crafted landscape transforms ordinary spaces into inviting, functional, and impressive environments. For businesses, it's not just beauty—it's brand image, guest experience, and cost efficiency.

Landscaping Styles for Commercial Spaces

- Modern Corporate: Clean lines, structured plants (boxwoods), and sleek hardscapes.
- Tropical Resort: Lush palms, bold flowers, and water features for resort-like vibes.
- Sustainable Native: Low-water, local plants that slash maintenance costs.

Commercial Landscaping Solutions

1. Corporate Landscaping

- Office Greenspaces: Low-maintenance lawns, shade trees, and sleek shrubbery for professionalism.
- Employee Gardens: Outdoor break areas with calming greenery to boost productivity.
- Parking Lot Greening: Drought-resistant plants to reduce heat and enhance aesthetics.

2. Resort & Hospitality Landscaping

- Poolside Paradise: Tropical palms, vibrant flowers, and privacy hedges.
- Grand Entrances: Seasonal flower rotations for unforgettable guest arrivals.
- Themed Gardens: Coastal, desert, or minimalist designs to match your resort's vibe.

3. Rooftop & Terrace Gardens

- Urban Retreats: Lightweight lawns, wind-resistant plants, and modular designs.
- Dining & Lounge Spaces: Herb gardens for restaurants, ambient greenery for bars.

4. Kitchen & Edible Gardens

- Restaurant Gardens: On-site herbs (basil, mint) and veggies (tomatoes, peppers).
- Resort Farm-to-Table: Guest-pickable fruit trees or berry bushes.

Hardscaping and Construction

Transform your commercial property with structural elements that combine function and luxury. We deliver precision-built hardscapes that elevate guest experiences and stand the test of time.

1. High-Traffic Pavements & Walkways

- Durable Materials: Interlocking concrete, natural stone, or permeable pavers for heavy footfall.
- Branded Pathways: Custom engraving/patterns with company logos or resort motifs.
- ADA-Compliant Designs: Slip-resistant, wheelchair-friendly surfaces.
- High-Traffic Roads: Steel-reinforced concrete roads

2. Resort & Hospitality Features

- Pool Decks: Non-slip travertine or textured concrete for wet areas.
- Outdoor Event Spaces: Staged patios with built-in lighting/speaker conduits.
- Fire & Water Features: Gas fire pits or cascading walls for ambiance.

3. RCC Roads & Premium Infrastructure

- Heavy-Duty RCC Pavements: Steel-reinforced concrete roads engineered for industrial/commercial vehicle loads.
- Decorative Concrete Finishes: Stamped or exposed aggregate surfaces for aesthetic appeal.
- Integrated Drainage: Slope-designed roads with concealed channels to prevent water pooling.
- Speed-Calming Features: Strategically placed raised crossings or textured zones for safety.

4. Luxury Amenities & Leisure Structures

- Gazebos & Pergolas: Custom-designed with weather-resistant teak or powder-coated aluminum.
- Lakeside Patios: Elevated decks with non-slip composite wood or stone finishes.
- Statement Borders: Laser-cut metal or illuminated bollards to define spaces elegantly.
- Recreational Add-ons: Bocce courts, putting greens, or outdoor kitchens for guest engagement.

Horticulture & Smart Irrigation

Plant Health Management

- Advanced soil diagnostics and targeted nutrition programs
- Disease prevention protocols and canopy optimization
- Mature specimen transplants for instant impact

Intelligent Irrigation Systems

- Weather-responsive smart controllers
- Soil moisture sensor integration
- Water-efficient drip and micro-spray systems

Scheduled Maintenance

- Seasonal irrigation audits and adjustments
- Preventative plant healthcare programs
- System winterization and spring activation. Horticulture & Smart Irrigation

Urban Gardening

Transforming concrete landscapes into vibrant, functional ecosystems that deliver aesthetic, environmental, and business value.

- Modular Hydroponic Panels: Soil-free, irrigation-integrated systems for lobbies/façades
- Moss Art Installations: Zero-maintenance living artwork for corporate offices
- Edible Walls: Basil, strawberries, and microgreens for hotel kitchens
- Lightweight Soil Systems: Engineered substrates for weight-restricted areas
- Wind-Resistant Planting: Ornamental grasses and dwarf shrubs for high-rises
- Entertainment-Ready Designs: Built-in seating + cocktail garden zones
- Office Micro-Farms: Team-building herb gardens with automated care
- Stress-Reduction Greenspaces: Lavender, chamomile in breakout areas
- 5-Star Kitchen Gardens: Chef's-choice varietals (heirloom tomatoes, edible flowers)
- Guest Engagement Plots: "Pick-your-own" cocktail mint bars
- Self-Watering Planters: IoT-enabled with moisture/light sensors
- App-Controlled Lighting: For indoor atriums or shaded terraces
- Maintenance Dashboards: Real-time plant health alerts for facility teams

Agro Forestry

**“Agroforestry is not just planting trees among crops
it’s weaving the future of food, forests,
and resilience into one living tapestry.”**

(Inspired by Dr. P.K. Nair, Father of Tropical Agroforestry)

We turn unused land into high-value timber assets—you plant, we guarantee the market.

1. Premium Timber Saplings

- Fast-Growing Species – Scientifically selected clones (Melia dubia, teak, sandalwood) optimized for rapid height gain.
- Climate-Adapted Varieties – Drought-resistant strains that thrive with minimal intervention.
- Disease-Proof Genetics – Lab-tested saplings with higher survival rates.

2. Seamless Growth Management

- Strategic Planting Plans – Optimal spacing and soil prep for maximum yield per acre.
- Nutrient Protocols – Custom fertilization schedules to accelerate growth cycles.
- Health Monitoring – Remote satellite imaging and field audits to prevent losses.

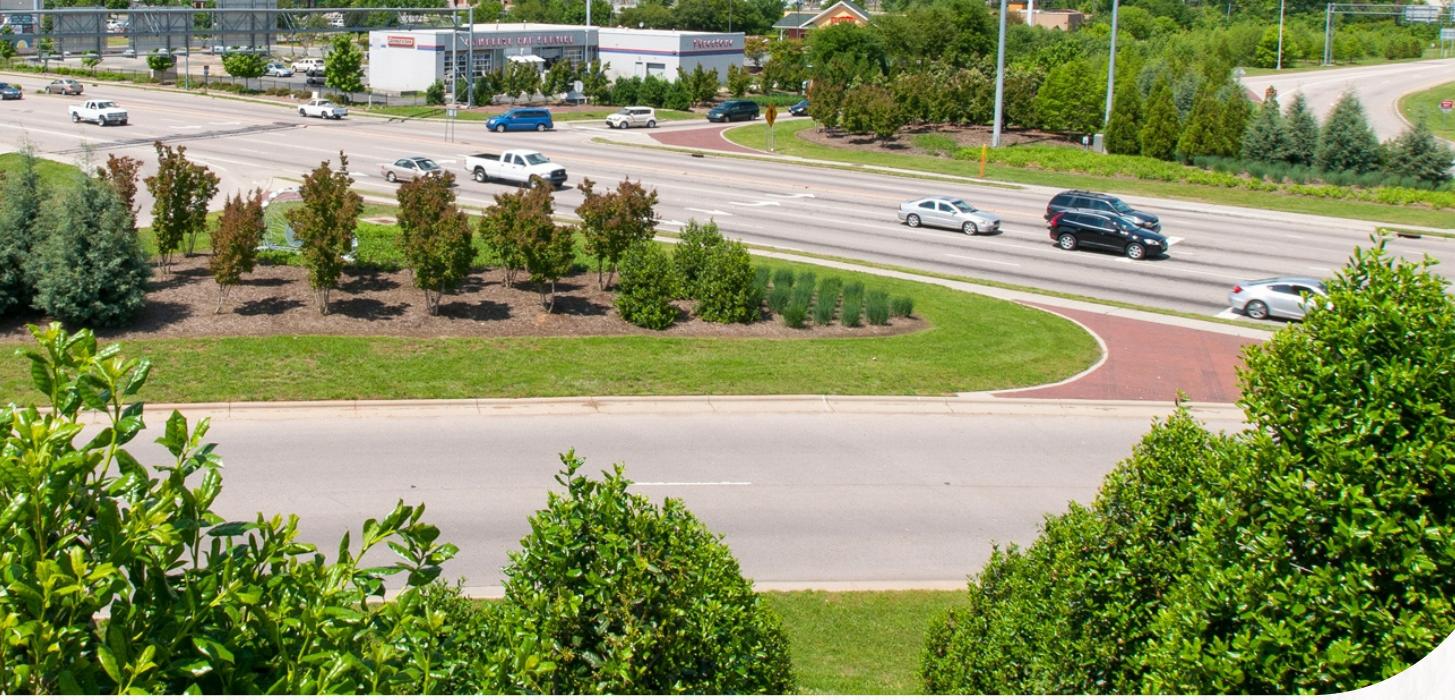

3. Guaranteed Harvest Buyback

- Contract-Backed Purchasing – We commit to buying at prevailing market rates upon maturity.
- Full Legal Compliance – Permits, felling licenses, and transport logistics handled by our team.
- Flexible Harvest Timing – Adjust schedules to match market price peaks.

4. Landowner Advantages

- Zero Market Risk – Our buyback clause protects your investment.
- Low-Input Model – Minimal labor or expertise required after planting.
- Dual Revenue Streams – Potential for intercropping early-growth years.

Highway Beautification

We transform barren highway corridors into thriving ecosystems and visually stunning gateways - blending functionality, sustainability, and brand-worthy aesthetics.

1. Strategic Greenbelt Development

- Slope Stabilization Systems: Terracing with deep-rooted vetiver grass and flowering groundcovers
- Noise & Dust Barriers: Multi-tiered plantations (trees + shrubs) acting as natural buffers
- Rainwater Harvesting Swales: Contoured bioswales with check dams for water conservation

2. Signature Landscape Features

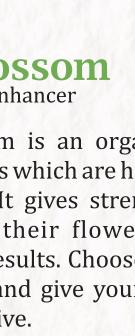

- Gateway Monuments: Custom hardscapes with integrated native plant displays
- Themed Overpass Gardens: Cascading floral installations on bridge structures
- Solar-Powered LED Displays: Illuminated botanical elements for nighttime impact

3. Commercial-Grade Infrastructure

- Durable Irrigation Networks: Automated drip systems with remote moisture monitoring
- Maintenance Accessways: Strategic service roads for efficient upkeep
- Safety-Enhanced Plantings: Crash-resistant species in median areas

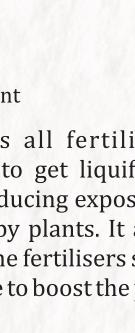

Welcome to Sonal Organics, where we are committed to promoting sustainable agriculture and helping farmers achieve bountiful harvests without compromising the health of our planet. We are a team of passionate individuals with a deep appreciation for the natural world and a shared commitment to sustainable farming practices. Our mission is to provide farmers with the highest quality organic fertilisers and soil amendments to support healthy plant growth and soil health. Our products are made from all-natural, non-toxic ingredients, including organic plant and animal matter, minerals, and beneficial microorganisms. We are dedicated to promoting soil biodiversity, which is essential for healthy plants, and our products are carefully formulated to support a thriving soil ecosystem. Our fertilisers are designed to provide plants with the essential nutrients they need to thrive, while also promoting root development, disease resistance, and overall plant health. We believe that healthy soil is the foundation for healthy plants, and our products are designed to support soil health by improving soil structure, water retention, and nutrient cycling. At Sonal Organics, we are committed to providing farmers with products that are not only effective but also environmentally responsible. We believe that agriculture can be a powerful force for positive change, and we are proud to support farmers who are committed to sustainable practices. Whether you are a small-scale farmer or a large-scale agricultural operation, we are here to support you in your quest for healthy plants and a healthy planet. Thank you for considering Sonal Organics, and we look forward to working with you to build a more sustainable future.

Dr. Blossom

Flowering Enhancer

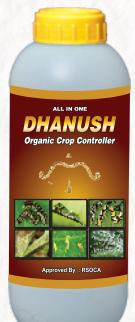

Dr. Blossom is an organic product based on amino acids which are helpful in making protein in plants. It gives strength to the plants and enhances their flowering. Don't settle for ordinary results. Choose Dr. Blossom flowering enhancer and give your plants the boost they need to thrive.

ORA

Sticking Agent

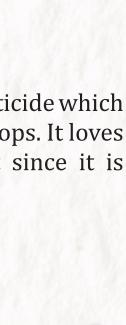

ORA helps all fertilisers, fungicides and pesticides to get liquified evenly in water. It helps in reducing exposure to the excess use of fertilisers by plants. It acts as a sticking agent which let the fertilisers stick on the surface for a longer time to boost the productivity.

Dhanush

Organic Crop Controller

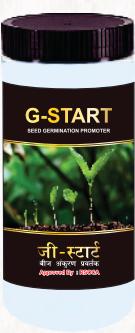

Dhanush is an advanced organic pesticide which eliminates all kinds of pests from crops. It loves crops as well as the environment since it is organic.

Sampoorna

Liquid Organic Fertiliser

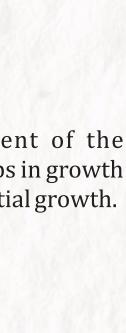

Sampoorna is a total growth catalyst for plants. It helps in the overall nutrition supply to plants. It enhances the photosynthesis process in plants to let the plant grow healthily.

G Start

Seed Germination Promoter

G Start helps in the enhancement of the germination process in seeds. It helps in growth of white roots of plants and exponential growth.

Volcano

Botanical Fungicide

Volcano helps in the eradication of fungus in seeds. It helps to fight fungus in roots to help the life of plants.

Nutramin

Soil Reformer

Nutramin is the best organic fertiliser in grain form. It helps in the enhancement of the productivity of the soil. It helps soil in water absorption to strengthen the irrigation system.

Green Gold

Organic Growth Regulator

Green Gold helps in growth and fruition in plants. It enhances the quantity and quality of fruits in plants. Green Gold helps in higher production yield and high quality fruits.
